

THE MIGHTY ELECTRIC M3B

NOW AVAILABLE!
THE M3B IS A MIGHTY
3-BUSHEL SEEDER
FOR SPREADING SEEDS,
FERTILIZERS, GRANULAR
HERBICIDES AND ICE
MELTERS. (NOT SAND!)

This versatile spreader is designed to be mounted to farm tractors, pickup trucks, turf trucks, (such as Cushman Truckster) or our T12-300 trailer. (Do not attempt to mount this seeder directly onto a lawn tractor, garden tractor or all terrain vehicle (ATV).)

The spreading width can be controlled from 10 feet to 30 feet (with optional rheostat). Amounts of material being spread can be accurately controlled with the maximum spread width depending upon the density of the material being spread. The M3B is powered by a heavy duty 12 volt D.C. electric motor. Wiring kit with switch is included. This unit is shipped with brace rods for universal mounting.

M3B Electric Seeder
